Lease/Occupation status for all Pt. Molate Users

- No Caretaker review for September 2015 available/enclosed.
- Caretaker attends the IR Site 3 Project Meetings conducted by PSEC
- Bldg. 123, 17 have been readied for additional Bay Crossings directed storage

Monthly Summary of security incidents:

- September, 2015 report enclosed.
- Three significant incidents were reported for September 2015, including locating a board off the window from Unit #47 in the Housing area. Area checked for unauthorized individuals and none were located. Security left note to inform City Caretaker to initiate repairs. A second incident occurred while conducting patrol located damage to Security Gate #11. The gate was dislodged from the foundation track and the frame appeared bent. The area was checked for possible suspect(s) none were located. Third incident involved security while attempting to check Building #123 noted that the locks for the structure had been changed. There had been no prior information forwarded to security concerning the key change or directions about obtaining a new key. Without access availability routine patrol for that area cannot be accomplished. 7 Officers assigned during month to perform and 2048 security checks were performed from upper ridge line to lower shoreline areas;
- DP Security performed 43 Contacts during this period.
- RPD has assigned a replacement for Capt. Mark Gagan as the Southern District Commander that includes Pt Molate. The new representative is Capt. Louie Tirona.

Monthly Summary of authorized entries:

- There was one public entry authorization for prior month
- A CSU Sacramento Graduate Student performing Still and Video Photography (Burluson)

Caretaker Summary

- Public Works Dept. indicated no report is available for this past period.

Beach Park

- Murray assisted EBRPD on September 17 in an initial design goal meeting with the selected engineering and design firm, Nichols Consulting Engineers of Pt Richmond, for the upcoming trail project on the Point San Pablo Peninsula that will include a Chevron easement area and City Beach Park property to align with the SF Bay Trail. Portion of SF Bay Trail over Pt Molate is estimated at 1.4 miles and balance will be 1.1 miles.
- Friends of Pt Molate Group, McKissock and Smith continue to forward regular reports of their volunteer-directed work improving the beach park area. PMCAC Member Stello is developing a joint document of three volunteer groups to work in agreement in a document that will be presented to the City Public Works Department.
- A recent Report of work performed by and concerns from the Friends of Pt Molate enclosed. Discussion in report between Jim Hanson and James McKissock on plant growth.

IR Site 3 Remediation and Abatement Project

- Bill Carson of Terraphase will be providing a current status update on IR Site 3 at tonight's meeting.
- Projected completion schedule is pending grading of finish grade soil.
- Final site to receive a seed mixture is still projected during time of first fall rains.
- A ribbon cutting site reopening event would be planned in early Fall.
- Red Rocks Marina is up for sale. This is significant historical location and place for the Richmond – Pt San Quentin/San Rafael ferry ran up until the Richmond San Rafael Bridge was built and open in 1956. Red Rocks property owner of record shows Castro Point, LLC, 3781 La Honda Road, San Gregorio, CA 94074.

Subject: Important issues at Point Molate Beach Park!

Dear Mr. Bermudez,

There are serious problems evolving at Point Molate Beach Park.

For some time now I, along with Friends of Point Molate, have been doing work once a week at Point Molate . My main responsibility is to clean the beach area, the picnic area, the parking lot and the surrounding area. On more than one occasion I have reported to various City officials that there are serious issues at the park including heavy drinking, drug use, and sexual acts taking place there in addition to the usual trash problem.

On this past Tuesday I cleaned the park and found a window frame with broken glass in the parking lot, smashed beer bottles in the park (see attached) and garbage everywhere. As usual, the garbage cans contained cases of beer. In the past, after the weekend, empty cases of beer and other types of alcohol bottles was the norm along with empty cigarillo packages used for smoking marijuana. What has changed is this is becoming a weekday phenomenon as well.

On Tuesday I cleaned every inch of the park and today I found it trashed again. Beer bottles, an empty half gallon of vodka, plastic cups, etc.

The word has gotten out that this is the place to go to party.

A few years back this type of behavior was taking place at Kennedy Grove. Things got so bad that the Grove was closed to the public.

Considering the amounts of drugs and alcohol being used at the park it would appear that it is only a matter of time before a serious incident will occur at the park. It is our duty to take measures to see that this doesn't happen.

These are my immediate suggestions for what needs to be done.

Signage in Spanish as well as English needs to be spaced on the cyclone fence stating no alcohol or drugs allowed.

The park's private police should be required to enforce the City regulations.

One or two garbage cans should be in the parking lot.

I realize the City has budget problems so I'll remind you that an ounce of prevention is worth more than a pound of cure.

Thank you.

Sincerely,

Charles T. Smith

Subject: Re: worjday Pt, Molate 9-29-15 10 am

Thanks for bringing this to my attention. This is indeed *Dittrichia graveolens* and not *Centromadia pungens* or *C. fitchii* spike tarweed which is a native both are listed for molate and shouldn't be removed being confused with the *Dittrichia* which needs to be removed asp. The good news is it is a annual and that it is a late bloomer and is just starting to flower now and seed probably won't set until November. We should be able to get the entire park cleared before November if we focus on this as we have the ox tongues.

The more challenging area will be the regrowth of this plant in the cracks of the north parking area which we mowed earlier. Mowing with the mulching lawn mower will keep the plants from producing much if any seed and can be done quickly. We left the roots of the annual *Pseudognaphalium luteo- album*, non native cudweed in the cracks to take up space. We should do the same with stinkwort. We might try salt water (bay water) in the cracks see if we can prevent growth for next year. These plants should be chopped out and picked up and removed a pile and not left laying around to set seed as they will do now at this late stage in their growth. I put this on the back burner since the ox tongue has been making seed we have most of it under control we stopped just short last Tuesday of having the last bad patch of ox tongue out of the east road side. we need to finish that first. Then on to the stink wort. I have been handling this plant without any dermatitis.

We may be able to work and extra days for this if you have time other than Tuesdays let me know if we can work together sometime. Thanks again Jim

remaining mostly large ox tongue with seed out of the east road side. We are almost caught up there, but we will still have to cut back and remove dalis grass after the ox tongue is under control. We went on to work on removing weeds on the beach bluff. The entire Park are is almost under control now, so propagating can begin soon. I've made a new potting mix which I hope will work half as good as it looks, I'm using American soils' coconut coir mix and which is ground coconut coir, sand, ground rock. and their landscape mix which is topsoil and sand with compost. This should provide lots of oxygen for the root and still provide enough moisture without the damping off problems I've been having with peat moss based products. I'm also sterilizing the mix by baking at 180 degrees. the mix 2 parts coconut coir mix to 1 part landscape soil. I've started with 2 cu. ft. of coconut coir and 1 cu. ft. I think we will need about 6 cu. ft. of finished mix for the season. Both Barbara and Dorothy have said they will helping along with David and my self. Grasses and perennials should be started now. last we we also took a hike down to the southern salt marsh seeing many once common now scarce species. Two small populations of *Ambrosia chamissonis* listed A2 in rarity and *Ambrosia psilostachya* which is on Dianne lakes watch list. both need to be protected as they have become increasingly rare on the east bayshore. We would also like to thank the Parks crew for picking up our huge weed pile and the most of the old limb pile(I hope they can get the rest of it) and the cut pine. That is it for now I hope you can make it Jim

an ecological threat perspective Cal IPC states that the long-term negative ecological impacts are much serious to Point Molate from stinkwort.

Unfortunately, it will also spread into the high beach.

I wanted to at least get you this more detailed info. Tuesdays are difficult, but was able to join Charles and Jim the other Saturday. I can will help with this one, but needed to know first if the scientific information on this weed can be used to get it reevaluated on behalf of the beach park and surrounding natural areas.

Thanks for all you do.

1. Presentation: Richmond Youth Council

No presentation. Item will be rescheduled.

2. Presentation: Update on Pt Molate Remediation Budget and Schedule

Mike Leacox of Nichols Consulting Engineers reported and provided presentation materials to each of the Committee Members. Presentation included a summary status of each of the Installation Restoration (IR) Sites. Garrett inquired on the Operations and Maintenance Schedule for IR Site 3. Leacox explained that monitoring wells will be installed at close of the current clean up project and shall remain for five years. Discussion on the annual cost of running a packaged ground water treatment plant system and the site clean up has removed this system. Leacox discussed the final five foot application of clean fill. Leacox discussed that a Risk

Assessment is next for Drum Lot 2 and the TCE is the primary concern. Garrett asked Leacox to summarize the status of the Insurance and how it can be applied. Discussion that Navy fund is \$28.5 M and to get into the insurance the City would need to expend an additional \$5M and that is unlikely. Carson noted that policy also expires in 2020. Howe inquired on Polar Compounds and how the Water Board is treating this site as well as the industry. Carson explained the ecotoxicity testing and special protocols. Carson explained amount of cubic yards in dirt brought into the site and contract allowed for 180 days to work and project is in period where Liquidated Damages can be applied and periods from July 9-30, 2015 and from August 24, 2015. 8:06pm Bob McNeil left the conference call. Carson explained that City gave Pacific States Environmental Contractors three weeks to find additional dirt before Liquidated Damages would be reinstated.

3. Report on IR Site 3, Environmental Remediation

Carson reported on the status of dirt import and last trucks came in on July 29. Carson explained that the Packaged Ground Water Treatment Plant has been shut down. Carson noted that Underground Storage Tanks (UST) inspections were still required. Reporting is now semi-annual for sites such as IR Site 4.
